REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art teaches away from the presently claimed invention in that the prior art teaches heating of the steel articles in a carburizing atmosphere. Thus, the prior art fails to teach the first step of heating to convert at least a portion of the article from ferrite to austenite *in a non-carburizing atmosphere*, followed by the second step of exposing the thus formed austenite to a carburizing atmosphere.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
